Internship Projects

Project - 1

Project Title :- Kitchen Claude

I created this app for online purchasing of Food because in the period of pandemic People avoid to go in crowd and also lots of restriction over there. Here I created two options for purchasing one is i.e. BOPIS (Buy Online Pickup in Store) and other is BORIH (Buy Online Receive In Home). If client book there order according to the requirement, they will get the confirmation by mail with their order details.

RESPONSIBILITIES:-

- Developed custom objects, relationship, workflows.
- Involved in Setting up Users, roles, profiles and Security settings.
- Designed and developed various functional needs in the application.
- Used Trigger for backup data and lightning aura component.

Project - 2

Project Title :- ONLINE E-PAY SERVICE

Due to pandemic situation, all shop is providing their material in online mode So we are building the Application where Customer can purchase product through online payment mode in that way they can get through BORIH I.e. Buy Online & Received in Home.

Environment: configuration, Apex

Role: Salesforce Admin/Developer (Trainee)

RESPONSIBILITIES:-

- Create Custom objects and Relationships and apply validation rules.
- Generate email Alter for client registration through workflow
- Use trigger to count number of orders
- Created order registration form using Aura component.
