

ESTAMSETTY KAMAKSHI

Associate Software Engineer

PROFILE

Java Developer with over 2+ years of experience as Java Developer in software industry in Analysis, design, development and deployment of Distributed. Scalable Intranet/Internet applications by using Java/J2EE technologies, excellent understanding of Software Development Life Cycle (SDLC) and methodologies like Agile approaches. Highly experienced in (JavaScript, Angular JS, MySQL, React JS, Node.JS).

SKILLS

JavaScript, Angular JS, HTML5, CSS, React JS, Node.JS, CI-CD, Microservices, Spring (Boot, Data, MVC), Hibernate, RESTful Web Services, RDBMS, JDBC, jQuery, Servlets, JSON, JSP, Basics of Laravel, Problem Solving, Agile, Jira, Team Player.

Database: MySQL, Oracle.

Operating System: Windows.

Versioning Tools: GitHub, GitLab.

Build Tools: Maven.

IDE: Eclipse, STS, Visual Studio.

API Testing: Postman.

WORK EXPERIENCE

Mphasis - Java Developer

June 2022 – Current

- Involved in software development life cycle of the project. Analyzing the requirements (functional and non-functional), creating the specifications for development.
- Implementing scrum-based agile software development for analyzing, designing and developing applications.
- Developing and implementing UI controls and APIs using Angular and used Angular reusable components to render the HTML5.
- Integrating jQuery and jQuery UI plugins like dropdown, calendar, modal, grid structures and menu for rich user experience.
- Developed application in Microservices Architecture style and involved in all phases of Software Development Lifecycle (SDLC).
- Development of Angular directives, which are used for DOM manipulation along with HTML5 components.
- Developed REST controllers using Spring Data REST to serve the UI with required JSON data.
- Effective usage of Spring core Annotations for Dependency Injection, MVC and JSP.
- Used GIT for version control across common source code used by developers.
- Tested the developed services and application functionality with J-Unit Test Cases.

Mphasis - Java Developer

October 2021 – June 2022

- As a Java Developer, possess experience in analysis, designing, development and modification according to the user's requirement.
- Integrated applications by designing database architecture and server scripting.

- Created solutions by developing, implementing and maintaining Java-based components and interfaces.
- Developed REST controllers using Spring Data REST to serve the UI with required JSON data.
- Studied and established connectivity with network systems, search engine and information servers.
- Completed applications development by coordinating requirements, schedules and activities.
- Contributed to team meetings, troubleshooting development and production problems across multiple environments and operating platforms.
- Worked on enhancement and Development of various modules as per client requirements.
- Supported users by developing documentation and assistance tools.
- Worked on bug fixes, to find the issue and solve it within the SLA.
- Updated job knowledge by researching new Internet/Intranet technologies and software products.

EDUCATION

Geethanjali Institute of Science and Technology

2017 - 2021

Bachelor of Technology – Electronics and Communication

Engineering – 8.7CGPA

Narayana Junior College

2015 - 2017

Intermediate – MPC – 97%

Sree Kiran E.M High School

2014-2015

SSC – 8.8CGPA
